Subject: RE: Missouri Early Data Certification for Statewide Ozone and Select SO2 Data
Date: Tuesday, January 26, 2016 12:54:50 PM

Hi Everyone,

Just wanted to let you know I received the data certification request via e-mail, yesterday. I was out of the office yesterday and have conflicts all day today, but I plan to review the data tomorrow. If I have questions about the data I will make contact. If not, I will apply the concurrence flag and let you know as soon as I have done so.

Thank you,
James

Subject: FW: Missouri Early Data Certification for Statewide Ozone and Select SO2 Data

Amy,

As EPA requested during our coordination call this morning we ran the AQS AMP 480 Design Value report for the Buick NE and Herculaneum Mott St. SO2 monitors. This report is attached along with the data certification information we sent yesterday. Although not specifically addressed in regulation, EPA has programed an EPA concurrence flag field in AQS that only the EPA can access. James Regehr is our EPA Region VII AQS contact if you have additional questions regarding the EPA concurrence flag.

Amy, Mike

The 2015 Missouri statewide ozone and select sulfur dioxide ambient air monitoring data certification letter and the supporting AQS reports are attached. Hard copy of the letter and copies of the reports are being mailed, shortly. We plan on certifying the remaining statewide air quality data by the July 1, 2016 deadline.

Please let us know if you have any questions.

Thank you.
